MANAGING DIRECTOR'S MESSAGE

Dear Valued Clients, Partners, and Stakeholders,

It is with immense pride and deep gratitude that I present the corporate profile of **New Ice City** — a company built on the foundations of engineering excellence, innovation, and an unwavering commitment to connecting communities across Botswana and Southern Africa.

Since our inception, we have evolved from a dynamic telecommunications contractor into a fully integrated infrastructure and civil engineering company, delivering world-class solutions for telecommunications operators, government institutions, mining companies, utilities, and private sector clients. Our continued growth reflects our dedication to quality, safety, and long-term value creation.

At New Ice City, we believe that infrastructure is the foundation of economic growth and sustainable development. Every fibre optic network we deploy, every telecommunications tower we construct, every road we build, and every engineering project we complete contributes to a stronger, more connected, and more prosperous Africa.

Our success is driven by an exceptional team of certified engineers, project managers, tower riggers, fibre optic specialists, ICT professionals, and construction experts who work with integrity, professionalism, and technical excellence. Guided by international best practices, including OSHA safety standards and ISO quality management principles, we consistently deliver projects that meet the highest standards of performance, reliability, and safety.

As technology and infrastructure continue to evolve, we remain committed to embracing digital transformation, renewable energy solutions, and sustainable infrastructure that empowers communities and supports economic development throughout Botswana and the wider African continent.

On behalf of the Board and the entire **New Ice City** team, I extend my sincere appreciation to our clients, partners, and stakeholders for your continued trust and confidence. We look forward to building lasting partnerships and delivering innovative engineering solutions that shape the future.

Thank you for being part of our journey.

NEW ICE CITY

COMPANY OVERVIEW

ABOUT NEW ICE CITY

New Ice City (Pty) Ltd is a Botswana-registered telecommunications, ICT, electrical, renewable energy, and civil engineering contractor headquartered in Gaborone, Botswana.

The company was established to provide world-class infrastructure solutions across Southern Africa, serving telecommunications operators, government agencies, mining companies, and private sector clients.

Our multidisciplinary team designs, builds, installs, tests, commissions, and maintains mission-critical infrastructure that connects communities, powers businesses, and supports sustainable economic growth.

REGISTRATION & COMPLIANCE

New Ice City operates in full compliance with Botswana's regulatory requirements and industry standards, and is also **Registered in Zimbabwe.**

- ✓ Registered in Botswana
- ✓ Registered in Zimbabwe
- ✓ PPADB Registered Contractor
- ✓ CIPA Registered
- ✓ Tax Compliance Certificate
- ✓ Health & Safety Compliant
- ✓ ISO-aligned Quality Management
- ✓ Fully Insured and Industry Compliant

OUR EXPERIENCE

With a team of over **50+** professional engineers, certified tower riggers, and fiber specialists, New Ice City has successfully executed projects for Mascom Botswana, Orange Botswana, and various government and private sector clients across the region.

Our experience includes projects for:

- Mascom Botswana
- Orange Botswana
- Government Institutions
- Mining Companies
- Internet Service Providers (ISPs)
- Private Sector Clients

GEOGRAPHICAL COVERAGE

New Ice City delivers engineering and infrastructure solutions across Southern and Eastern Africa.

OUR PROFILE

OUR VISION

To be the most trusted and innovative telecommunications and civil engineering company in Southern Africa — engineering a connected, prosperous, and sustainable future for all communities.

OUR MISSION

To deliver world-class telecommunications infrastructure, civil engineering, and ICT solutions that connect communities, enable economic growth, and transform lives across Africa.

OUR CORE VALUES

Excellence

We pursue the highest standards of quality in everything we do.

Integrity

We operate with transparency, honesty, and professionalism.

Safety

Zero harm to people, communities, and the environment.

Innovation

We embrace new technologies to deliver better outcomes.

Pan-Africanism

We are committed to African development and economic empowerment.

Customer Focus

We put our clients first in every decision we make.

SUSTAINABILITY & CORPORATE SOCIAL RESPONSIBILITY

Building a Better Africa — for Today and for Future Generations

Environmental Stewardship

We minimize our environmental footprint through responsible waste management, site rehabilitation, and the promotion of renewable energy solutions. Our solar installations reduce carbon emissions across the region.

Local Employment & Skills Transfer

New Ice City is committed to employing and training local Batswana and African professionals. We invest in apprenticeships, graduate programmes, and on-the-job training to build the next generation of African engineers and technicians.

Community Development

We actively support the communities in which we work through school connectivity programmes, youth technology training, and corporate sponsorships.

SMME Empowerment

We partner with and subcontract to local small, medium, and micro enterprises wherever possible, contributing to economic empowerment and local content development.
